

## Kerry Leifer General – 4/29/2021

### Agenda

#### CITAB Hiring/Staffing

- Status of Inert Team Leader hiring –Interviews to commence next week
- Additional hire(s)
- Student Contractor status?
- NOWCC—interviews to be concluded next week (last three of six candidates). Selection to follow.

#### Acute Toxicity

- Process improvements for review assignments and scheduling –issue regarding notification of withdrawn actions under review, particularly contractor review
- Development of Acute Tox Priority Spreadsheet for RD
- NAMs—discussion with AD and BPPD regarding *in vitro* alternative tests, particularly for eye irritation. Second of two IIVS Sessions in April held on 4/8—all AT Team members attended.
- Corteva proposal for alternative testing for acute tox
- Allen Triplett selected for CATSAC

#### Inert Ingredients

- Propylene glycol and Ray McAllister/CLA et al proposal. Draft Phase 1 letter circulated earlier this afternoon—hopefully for signature.
- PFAS
  - table of PEER inerts from InertFinder updated with columns for whether it is PFAS per OPPT definition or OECD **draft** definition
  - Meeting with Jeff Dawson 5/4/21
- Commodity Inert Ingredients. To be updated once Phase 1 letter signed
- Fragrance tolerance exemption petitions—Pat Quinn inquiries—team has developed action plan
- Inert Team working on spreadsheet of all pending inert actions with eye to efficiencies in assignments/roles
- Bullets of steps being taken to address inert petition backlog being drafted, will be finalized by team next week.

#### Product Chemistry

- Self-Certification—still awaiting OGC response to PR 98-1 certification statement—Allison Payne emailed 2/4
- ACB PC reviewer process continues - assignments made in conjunction with May prioritization
- SWAT TEAM – 2 FHB reviewers, one HB reviewer (started week of 3/8)
- PFAS—review of Clarke products. First batches of reviews completed. Additional actions from other registrants now in queue.

- Discussion with RAB8 (held 4/14)—product chemistry information provided to Amy Babcock for consideration in assignment/conduct of reviews

#### Other CITAB issues/activities

- Midyears and awards completed.
- PFAS—Results of substructure search for PFAS in active ingredients
- Summitec contract—in last option year. Any word on new contract?
- CITAB Office hours—3/17 2-3 pm—lots of PC questions, 4/5 1-2 pm, also lots of PC questions
- CSF/Fast Track Training –2<sup>nd</sup> session held 3/2—follow up training? (Bo absence)
- SWAT Front End Team (CSF actions) – training held 3/3—follow up training (Aswathy reports this is going well so further training not needed at this time.)
- Additional funding for contractor—completed. Quarterly briefing with RD IO scheduled
- CSF Images and Documentum/ITRMD
- CITAB staff questions/concerns regarding USA Access Credential and move prep.
